

TABLE OF CONTENTS
Volume 11/1a
The Reform of Ophthalmology
Part One

§1001. Introduction	5
§1002. Hermann von Helmholtz	7
Dioptrics	8
§1003. Anatomy of the visual system	11
§1005. Ernst Brücke (1819-1892)	13
§1007. Histology of the eye	18
§1008. The pathologic anatomy of the visual organ	20
§1009. The physiology of the visual organ	21
§1010. Goethe and the color theory	23

§1011. The natural philosophers	30
§1012. Seebeck and the history of color blindness	36
§1013. Johannes Evangelista Purkinje (1787-1869)	44
§1014. Purkinje's contribution to ophthalmology and visual physiology	47
§1015. Johannes Müller (1801-1858)	52
§1016. Publications by Johannes Müller concerning the physiology	
of the visual system	55
§1018. Alfred Wilhelm Volkmann (1800-1877)	70

§1021. Hermann von Helmholtz (1821-1894)	83
§1022. The publications by Helmholtz	90
§1023. The precursors of the ophthalmoscope	97
§1024. Further comments to the invention of the ophthalmoscope by Helmholtz	104
§1025. Helmholtz' successors	110
§1026. Resistance against the ophthalmoscope	116
§1027. Acceptance by the practicing physicians	119
The annual reviews	122
§1028. The introduction of the ophthalmoscope	123
§1029. Bibliography of ophthalmoscopy	126
§1031. Ophthalmoscopic atlases	145
§1032. Atlas der Ophthalmoskopie, by Dr. Richard Liebreich	155
§1033. The development of ophthalmoscopic knowledge	160
*§1034. Final observations on ophthalmoscopy	163

§1035. The ophthalmometer	164
Brief History of the Ophthalmometer	166
§1036. Accommodation	172
§1037. The « <i>Handbuch der physiologischen Optik</i> »	173

§1038. Frans Cornelis Donders (1818-1889)	179
§1039. Donders, the investigator, teacher and practitioner	183
§1040. Donders' main contribution: his book on the anomalies of accommodation and refraction	187
§1041. The new terminology introduced by Donders	190
The historical remarks	191
The History of Hypermetropia	192
The history of Myopia	194
The History of Astigmatism	195
The History of Mydriatics and Miotics; the history of Paresis of Accommodation	201
§1045. Bibliography of disturbances of refraction and accommodation	202
§1046. The ophthalmic publications by C.F. Donders	203

ALBRECHT VON GRAEFE (1828-1870)	214
Bibliographie	215
Childhood	217
His Education	217
Years of travels	219
Graefe, the master of ophthalmology	222
The turning point in Graefe's scientific career	226
Graefe's private life	230
His relationship with the outside physicians	241
The tragic end of Graefe's life	243
The Graefe Monument	247
Albrecht von Graefe was involved in the foundation of three institutes	248
A. v. Graefe's scientific work	257
Envy and Grudge	272
Among the choroidal diseases A. v. Graefe concerned himself especially with the so-called sclerotico-chorioiditis posterior	286
Errors of refraction and disturbances of ocular motility	304
Parasites and tumors	305
Contributions to therapy and surgery	308
The relationship of ocular diseases to pathologic changes in other organs and systemic diseases	311
Index	319
